

FRANK TURNER AWARD - 1993

Peggy Price

Prior to coming to Victoria, Peggy was a founding member of the Langley Camera Club. She was involved in ceramic sculpture and photography. In our club she was one of the first members to get involved with Cibachrome. She has given instruction and practical demonstrations to the Club. She has written many articles for Close-Up over the years and is presently Contributing Editor.

Peggy has held several club positions, becoming President in 1977. She has taken photography courses at the Banff School of Fine Arts, and has had slides accepted in international and national salons. She placed third across Canada in the NAPA "Top Ten" slide category recently. As well as showing many audio visual programs here, she has presented several of these in the Puget Sound area through the PSA.

(From the award speech by John Hall)

Currently Peggy is 'up to her ears' in paper as she chairs the committee and acts as Editor in Chief for the commemorative 50th Anniversary book!!
