

FRANK TURNER AWARD - 1992

John Hall

John joined the Club in 1970 and ever since has come early to meetings because he drags in a lot of equipment and sets up the sound system and projectors. Soon after joining he volunteered to take charge of our equipment - a job he still does in spite of the increased volume and complexity of the equipment. Not only does he do most of the projecting but he also undertakes the arrangement of your slides for a couple of special programmes each year with appropriate titling and music.

He regularly attends Close-Up production and when envelopes are all stuffed for mailing, he divides the remaining three-quarters of the bulletins into appropriate packets, then spends the next day delivering them to all our advertisers.
(From Dick Holden's presentation)
