

Meet Jacob “Jake” Herman
2025 VCC Excellence in Photography Scholarship Winner

Jake’s Bio

I am originally from Calgary, Alberta but have lived in Victoria for the past six years. I am pursuing a career in marine biology and biological illustration. I am currently studying at Camosun College to obtain a visual arts diploma, which has allowed my interest in photography to blossom. I hope to get more into nature photography and some day, underwater photography. I am honoured to be the recipient of the Victoria Camera Club award for Excellence in Photography this year and look forward to meeting with members of the club.
